

Edible Cookie Dough

Safe enough to eat with a spoon

2 sticks softened butter

$\frac{3}{4}$ cup brown sugar

$\frac{3}{4}$ cup granulated white sugar

$\frac{1}{2}$ tsp. salt

2 teaspoons Cookie Nip

3 tablespoons milk

2 cups all-purpose flour (heat it in the oven for five minutes to eliminate bacteria)

Mix-ins of your choice (for a whole recipe, add one cup of mix-ins)

mini chocolate chips

chopped peanut butter cups

chopped Oreos

mini baking m&m's

chopped butterfingers

colorful sprinkles

Mix by hand or with a mixer butter, sugars, salt, Cookie Nip, and milk. Fold in flour and mix. Decide what mix-ins you want to add and stir in. (The mini sized chips and finely chopped candy bars work better than large pieces). You may divide the dough and divide the mix-ins so you have several flavors. Refrigerate. Serve by scooping into bowls or keep serving size portions in the fridge. Cookie dough may also be frozen.
